

New Canadian 'tweens' at greater risk of drowning

5x

11 to 14-year olds new to Canada are five times more likely to be unable to swim than their Canadian-born classmates.

93% participate in activities on, in or around the water.

73%
who can swim,
learned in Canada.

1 in 5 report they are unable to swim (17%) vs 3% of those born in Canada.

1/4

who say they can swim also say they **would not be able to meet** the Swim to Survive® standard.*

*ROLL into deepwater, TREAD water for one minute and SWIM 50 metres.
